MANIFEST EDUCATION
SOLUTIONS GROUP, LLC

We use our signature framework to support leadership with creating healthy work cultures, reducing stress & toxicity; improving emotional intelligence and overall wellness by prioritizing self-care and adult social-emotional learning.

Black SEL+ School Culture & Climate: SEL as the Foundation to Creating a Healthy Work Culture; to Reaching Your School's Mission & School Improvement Goals

SESSION OVERVIEW:

Participants will engage in restorative practices as we delve into the power SEL has in our community. We will explore how SEL empowers leadership, educators, students, parents and all stakeholders. Discussion will include Leadership's role in embodying & increasing their teams' SEL capacity to not only create a thriving work culture, but to ultimately increase our students' embodiment of SEL for their educational career and lifelong success.

Trends:

Studies found that leaders who underwent SEL training were rated by their peers as having better leadership skills, better interpersonal relationships and greater team effectiveness. Research also shows a correlation between SEL and improved workplace climate and achievement, especially when an emphasis on cultural competence and diversity are integrated into their SEL program.

OUTCOMES & RESULTS: Participants will...

- ...understand the importance of ingraining adult SEL into the school culture.
- ...recognize Leadership's role in prioritizing SEL for adults and students.
- ...engage in practices to refine and deepen SEL practices, specifically for black educators and students.

Results:

- A shared mission of integrating adult SEL into the school culture as a prerequisite for a thriving culture and healthy work climate.
- Action steps for integrating SEL into the building culture.
