

Black SEL + Black Spaces

1 Understand the historical context and its continued impact. Educate yourself on the depths of black history in order to have more thoughtful and impactful dialogue.

2 Teach people how to discuss racial issues and inequity. Approach crucial conversations with empathy and openness. Be willing to have the tough conversations.

3 Listen to black voices. Validate the experiences of black people

4 Develop equitable practices and promote racial justice. Set a firm example of equal access and fair treatment based on the needs of your community.

5 Create a safe space for the Blackness. Welcome traditions, stories, creativity, and all forms of blackness. Embrace each other with care.
